

Motorsport Safety Harnesses

6 point reason why champions use TRS Harnesses:

1. Immensely strong aircraft quick release buckle
2. Intercom strap on shoulder for intercom or drinks bottle
3. Thumb loops for easy adjustment on lower shoulder straps
4. Alloy adjusters, easy to adjust and 40 % lighter than standard steel adjuster
5. Velcro sown onto the outer lap strap enabling lap straps to stick to the seat when the driver gets into the car
6. Complete kits supplied with eyebolts or 7/16" set-screws
